

The RC Booster offers a super transparent 20db+ clean boost with an adjustable $\pm 15\text{dB}$ two band active EQ which adds a wide range of harmonic content to your ideal sound. As a clean boost, it can enhance other pedals, such as "overdrive and distortion pedals", or you can crank the gain for a "crunch" sound. But, the RC Boosert is an extreamley transparent, where many player's find they leave it on all the time. True bypass for eliminating any signal interference when switched off.

Specs:

Dimensions (W/D/H): 4.39" x 2.38" x 1.98"

(110mm X 60mm X 50mm)

Weight: 0.6 lbs. (270g)

True Bypass Switching

Power Consumption: 9VDC/10mA (max)

Approx. 40hrs continuous use with alkaline battery

Battery Type: 9VDC (006P) x 1

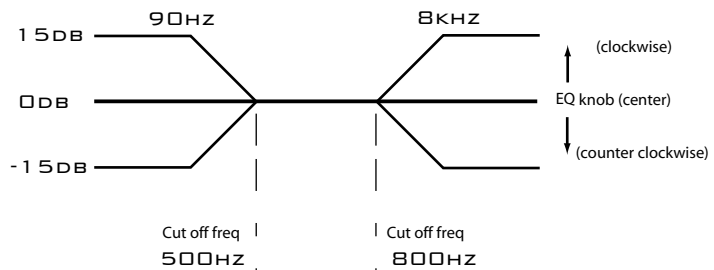

AC Adapter (Optional): 9VDC

Negative Tips (Regulated recommended)

Boss PSA, Ibanez AC109, Dunlop Brick, Voodoo Labs, 1-spot etc

Input Impedance: 1M ohm

Output Impedance: 2K ohm
